NORDIC FLAME - MODERN FIRE SAFETY

Add a layer of safety and peace of mind to your home.

Nordic Flame combines function and design with a complete series of high-quality fire extinguishers and fire blankets designed with your stylish home environment in mind.

Fire protection is always a current and important topic, especially in one's own home. However, traditional fire safety products are typically not aesthetically pleasing and usually end up being tucked away somewhere in a closet.

Our products are made to be exposed and therefore more accessible should an emergency arise. Having your fire extinguisher or fire blanket within close reach allows you to engage a fire in its earliest stage, thus preventing serious fire damage.

Packaging

Our elegant packaging comes with easy to follow instructions, making our products both an essential and stylish gift.

Everybody needs a fire extinguisher.
Why not one that looks beautiful?

FIRE BLANKETS – COMPACT, QUICK AND ACCESSIBLE

High-quality fire blanket in a steel box with embossed logo. A fire blanket is a very important safety tool used to extinguish minor fires. Easy to use with no training required. Tested and certified according to EN 1869.

FIRE EXTINGUISHERS – A SAFE INTERIOR DETAIL

Exclusive fire extinguishers with elegant details designed for stylish home environments. Our fire extinguishers contain an effective powder with very high extinguishing power. Manufactured with the highest quality standards and tested according to EN3.

FIRE BLANKET

Easy to use with no training required. The fire blankets are made of silicone-coated glass fiber fabric and designed to withstand extremely high temperatures. Blanket size is 120x120 cm. Tested and certified according to EN 1869.
